EYE CARE

Please read and initial each statement. Complete, underline or circle individual selection accordingly.

- I authorize Dr Kim and associates to perform IPL treatments on me in an effort to improve Dry Eye Disease due to Meibomian Gland Dysfunction. ___________
- I understand that without eye protection, IPL applied near the eyes may cause severe ocular complications. ___________
- I understand that there is a rare possibility of side effects or serious complications including permanent discoloration and scarring. I am aware that careful adherence to all advised instructions will help reduce this possibility. ___________
- I understand the below list of short-term effects and agree to follow matching guidelines:
  - Flaking of pigmented lesions - crusts may take 5 to 10 days to disappear and it is important not to manipulate or pick which may otherwise lead to scarring
  - Discomfort - during the procedure, I might experience a sensation similar to a rubber band snap, which degree will vary per my skin condition and area sensitivity but that does not last long. A mild "sun-burn" sensation may follow for typically up to one hour and will be reduced with application of cooling and soothing creams.
  - Reddening and Swelling - severity and duration depend on the intensity of the treatment and the sensitivity of the area to be treated. These phenomena may be reduced with application of cooling and/or anti-inflammatory creams
  - Bruising may rarely occur and may last up to 2 weeks ___________
- I understand that sun exposure or tanning of any sort is not aligned with the pre and/or post-care instructions and may increase the chance for complications. ___________
- The procedure as well as potential benefits and risks have been thoroughly explained to me and I have had all my related questions answered. ___________
- Pre and post-care instructions have been discussed and are completely clear. ___________
- I understand that results may vary with each individual and acknowledge that it is impossible to predict how I will respond to the treatment and how many sessions will be required. ___________
- I consent to photographs being taken for the purpose of documenting my progress and response to the treatment and be kept solely in the medical record. ___________
- I agree to review the following IPL pre-treatment compliance checklist along with my physician and bring accurate and updated data, to the best of my knowledge. ___________

For Dry Eye Disease due to Meibomian Gland Dysfunction:

	Skin type of the area to be treated: I □ II □ III □ IV □ V □		
OptiLight	Ocular surgery or eyelid surgery, within 6 months prior to the first IPL session?	NO	YES
